		<p>i) Estimated cost do not include the cost of DSL (Down Shop lead). The estimated cost per meter length of DSL is as:M.S. Angle type= Rs. 2,500/- per meter and shrouded type = Rs. 3,500/- per meter. The Railways/Consignees while sending the indent should add the cost of DSL as per requirement.</p> <p>ii) EOT cranes with VVVF (Variable Voltage Variable Frequency) drive have lower power consumption and are relatively easier to maintain and therefore have lower life cycle cost. In case of consignee opting for VVVF drive, add10%to the initial capital cost of EOT crane. (Recommended for EOT crane of capacity 20 Ton. and above)</p> <p>iii) For additional feature of remote control add Rs. 2.0 lakh to capital cost.</p>
